

LED Globes

BAY15D1224LR

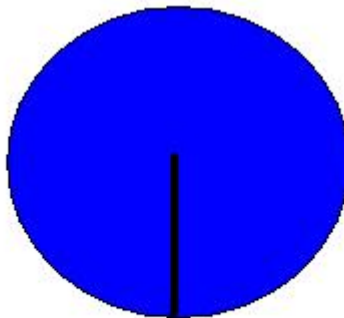

12 Volt BAY15D 24 Red LED Halo Design with 18 LED's on top of globe with a ring of 6 below to give 360 degree light angle 1 Pc/Pack draws @ 13.8v tail 0.04amps stop 0.16amps

Commonly best suited for s/wagons, utes, vans and motorbikes to replace stop/tail globe where original globes points straight out and doesn't have a big reflector.

We suggest use a Red led behind a Red lens as will penetrate better and keep a true colour than if a white led fitted as sometimes a white led behind a Red lens will make the Red lens look faded.

1 Unit Per Pack

Ideal for Boats, Bus, Car, Caravans, Trailers and Trucks

Main Beam at 360 Degree
