

LED Globes

BAY15D1236LR

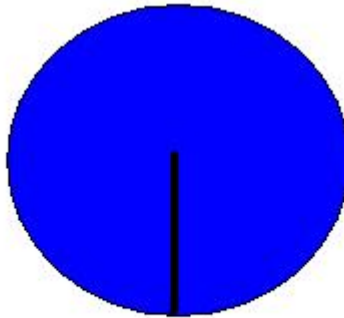

12v BAY15D 36 Red LED Design with 9 LED's on top and 3 layers of leds around the sides totaling 36 leds to give 360 degree light angle, all light up for tail and all go double brightness for stop 1 Pc/Pack draws @ 13.8v tail 0.05amps stop 0.2amps

Commonly best suited for sedans and motorbikes to replace stop/tail globe where original globes points straight or at a angle and use the reflector to push the light out.

We suggest use a Red led behind a Red lens as will penetrate better and keep a true colour than if a white led fitted as sometimes a white led behind a Red lens will make the Red lens look faded

1 Unit Per Pack

Ideal for Boats, Bus, Car, Caravans, Trailers and Trucks

Main Beam at 360 Degree

LIGHT COMPARISON TOO A 5/21W INCANDESCENT GLOBE
