

LED Bedside Light

BL-1028

BRITE LED TECH PRODUCT

1 Year Warranty

Main Beam at 50 Degree

Gives a light comparison to a 10w incandescent bulb

12v DC 12 LED Bed side reading light, metal body construction finished in a brushed chrome look. Has on off switch on base with 2 mounting screws.

Head can rotate about 350 degree and adjust angling light up or down

Base diameter of 60mm looks great in caravans and motorhomes while only drawing 0.7w @ 12v

Available in Cool white or Warm white colour light output, compared to a 10w incandescent globe

with a 50 degree beam spread makes these ideal for reading in bed and with no heat from the leds

also makes these ideal and the safest option for bed lighting

Base Diameter	60mm
Height from base	85mm
Voltage	12 Volt DC
Light Output Colour	3200k or 6000k
Average Power Draw @ 13.8v	0.06 Amps
Packing	1pc / White Box

These are fitted with a MR11 12 led globe style with a 50 degree beam spread

Though keep in mind we do offer alternative MR11 replacements such as 21 smd with a 120 degree beam spread available in cool white and warm white with a light output compared to a 20w incandescent globe.
