

Pole Mount Accessory

BL-108BS1

BRITE LED TECH PRODUCT

- Pole mount base adaptor for BL-108 and BL-110 series lamps, has 4 mounting holes to line up with the brite led tech high power work lamps and has a ball mount inside for full rotation and control of adjustments, can tighten or loosen the 4 bolts to either make movement easier or harder depending on what is needed.
- Base takes a 25mm OD size pole and has a stainless steel nut/bolt for tightening against pole,, also has a hole through the center of complete mount so that is the BL-108 or BL-110 style lamp is used then the wire from the lamp can enter directly through the center to conceal the wiring.

This base can fit either of the lamps shown here being brite led tech products
BL-108 Series Lamps
and
BL-110 Series Lamps
