

# LED Globe

BL-G410SMS

**BRITE LED TECH PRODUCT**

2 Year Warranty

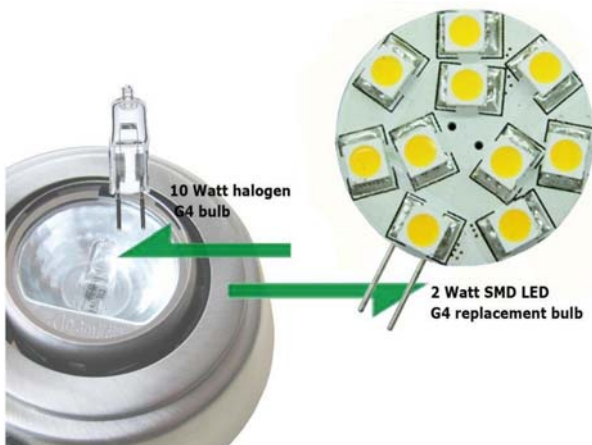

**Main Beam at 120 Degree**

OFFERS A LIGHT OUTPUT COMPARED TO A STANDARD 20W INCANDESCENT BULB

- G4 10 SMD 10-30V AC/DC Side pin style, this LED replaces the standard G4 2 pin halogen bulb found in many caravans and RVs, there are 2 common globe mounting styles being globe fitted in lamp vertically or horizontally, this side pin style is best suited for the horizontally fitted globe styles, by having side pins and all SMD LEDs fitted on the one side it enables for all light to be facing outwards from your lamp lens giving you 100% efficiency.
- 
- Colours:
- Cool White = BL-G410CWSMS
- Warm White = BL-G410WWSMS
- 
- **ADVANTAGES:**
- Offers low-no heat
- **Low power consumed**
- **Can be fitted to 12v or 24v systems**
- **AC or DC applications is fine**
- **Unstable fluctuating voltages is fine with a range of 10-30v**
- **Small size with high light output**
- **Strong construction with true M/Volt properties meaning stays same brightness throughout the voltage range this ensures a long stable life unlike non true m/volt products which get brighter as voltage increased which causes premature death**
- **Uses latest 5050 style SMD Chips**
- **Available in Cool White or Warm White**
- **2yrs Warranty**

Diameter	30mm
Pin Distance apart	4mm
Voltage	10-30v AC/DC
Lumens	160Lm
Light Output Colour	WW 3000k or CW 6000k
Average Power Draw	0.22 Amps @ 13.8v and 0.11Amps @ 28v
Packing	1pc / Static Bag

Cool White 6000K

Warm White 3000K
